Appendix A2. Complementary results of the Factor Analysis of Mixed Data (FAMD)

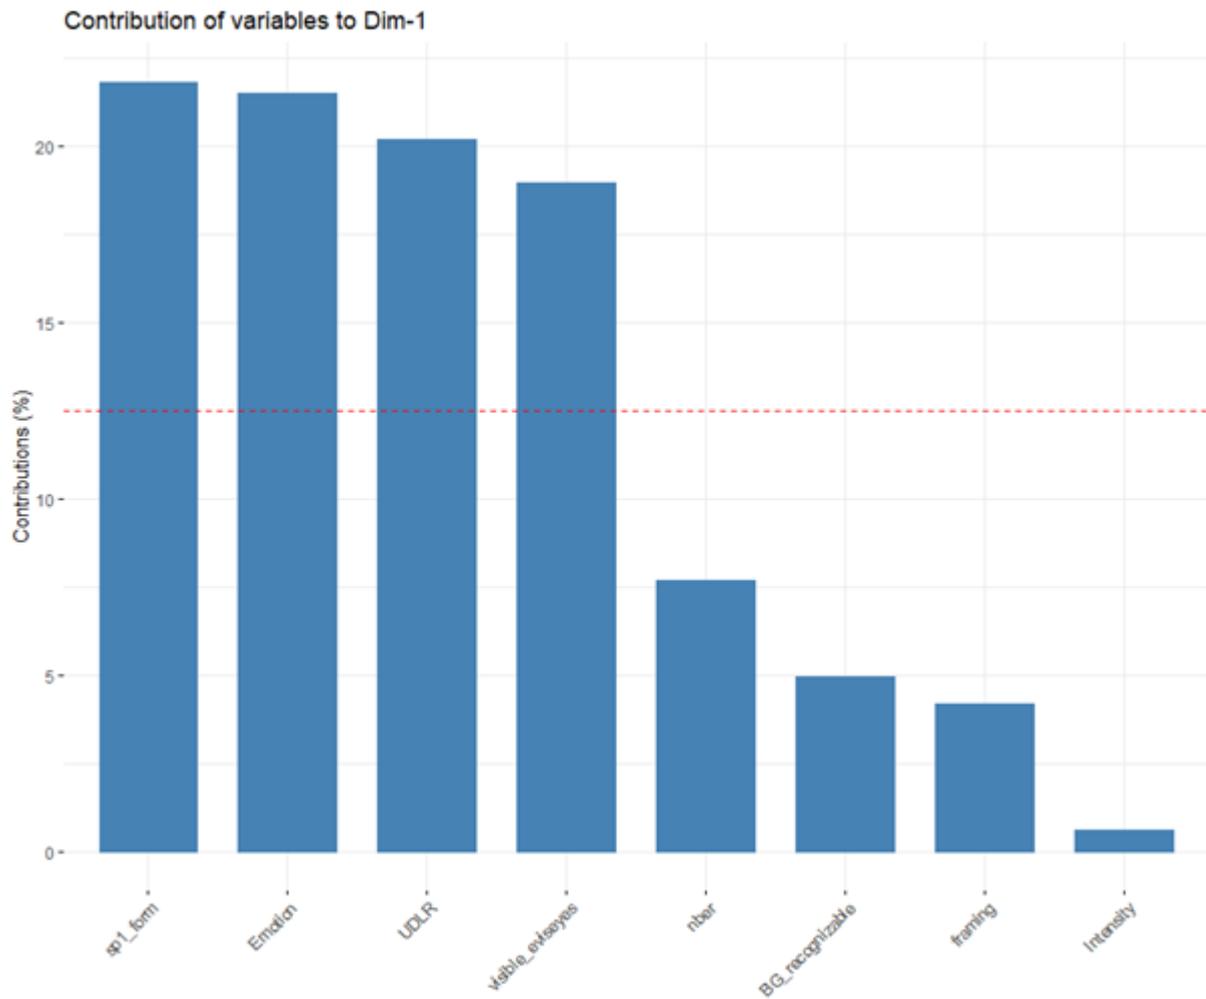

Figure 1: Variables most contributive to the first dimension on the FAMD.
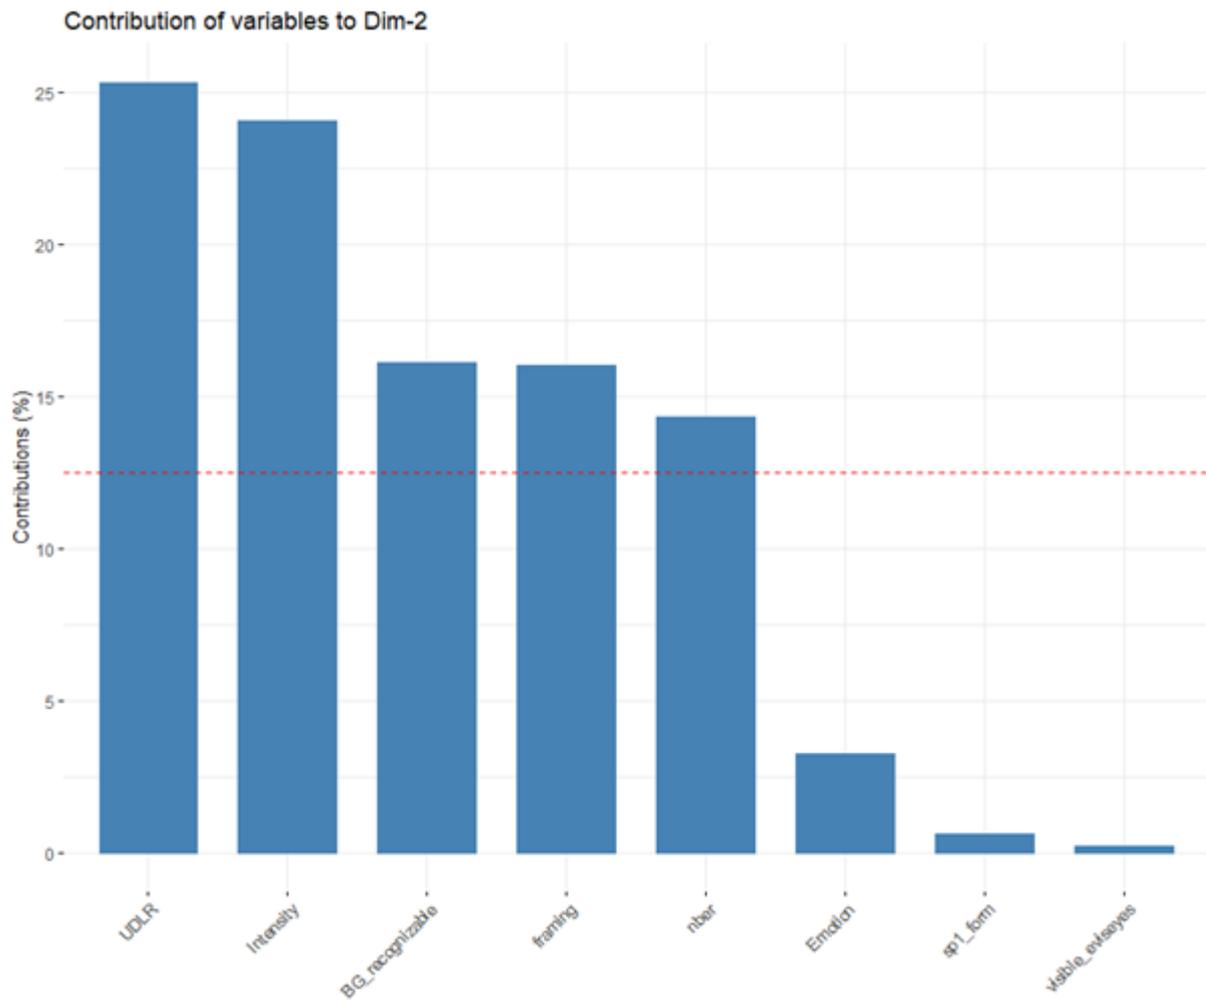

Figure 2: Variables most contributive to the second dimension on the FAMD.
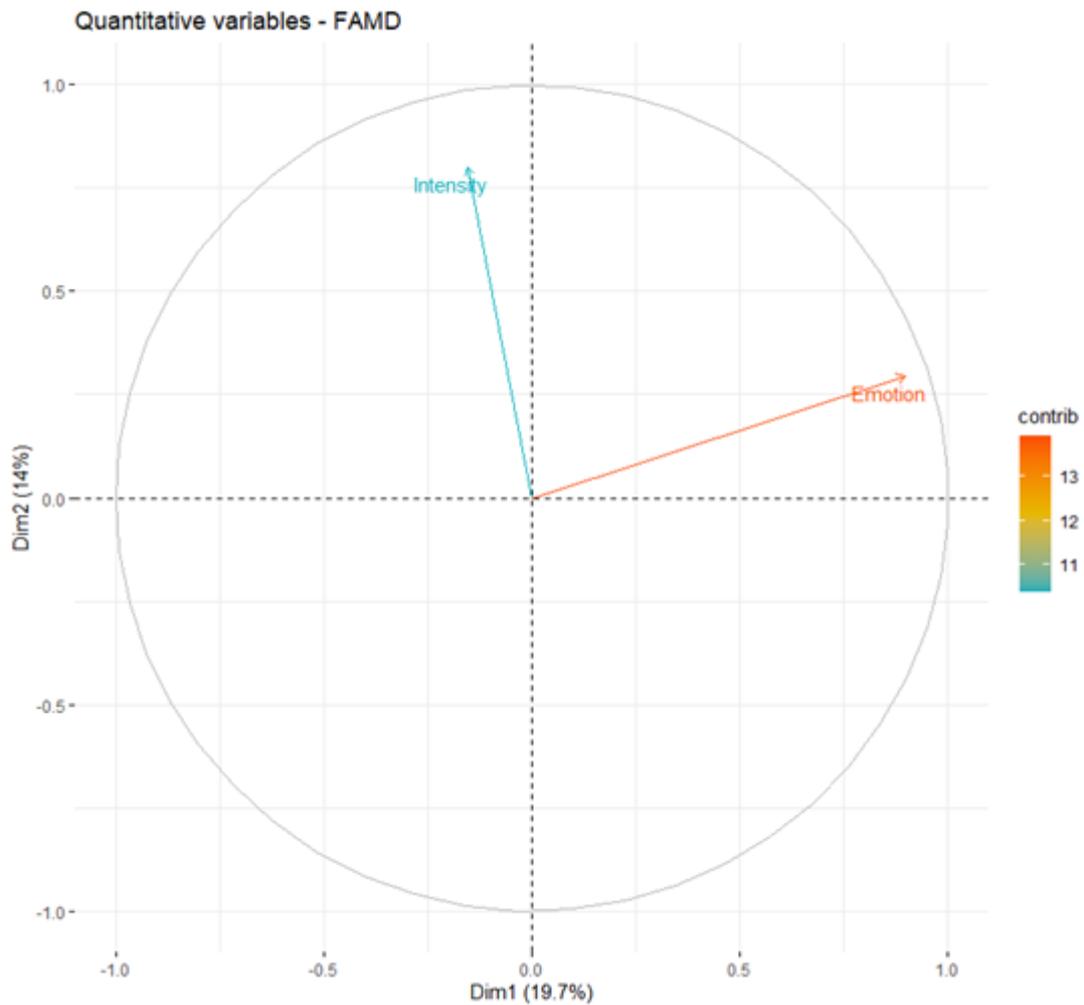

Leandro, C., Blanc, N., & Cortet, J. (2026). Choosing images to create awareness of soil biodiversity: Lessons from emotions aroused by photographs of Collembola. *Soil Organisms, 98*(1). https://doi.org/10.25674/477

Figure 3: Correlation of the variables to explain, emotion and intensity, towards the first dimensions of the FAMD.

Leandro, C., Blanc, N., & Cortet, J. (2026). Choosing images to create awareness of soil biodiversity: Lessons from emotions aroused by photographs of Collembola. *Soil Organisms, 98*(1). https://doi.org/10.25674/477
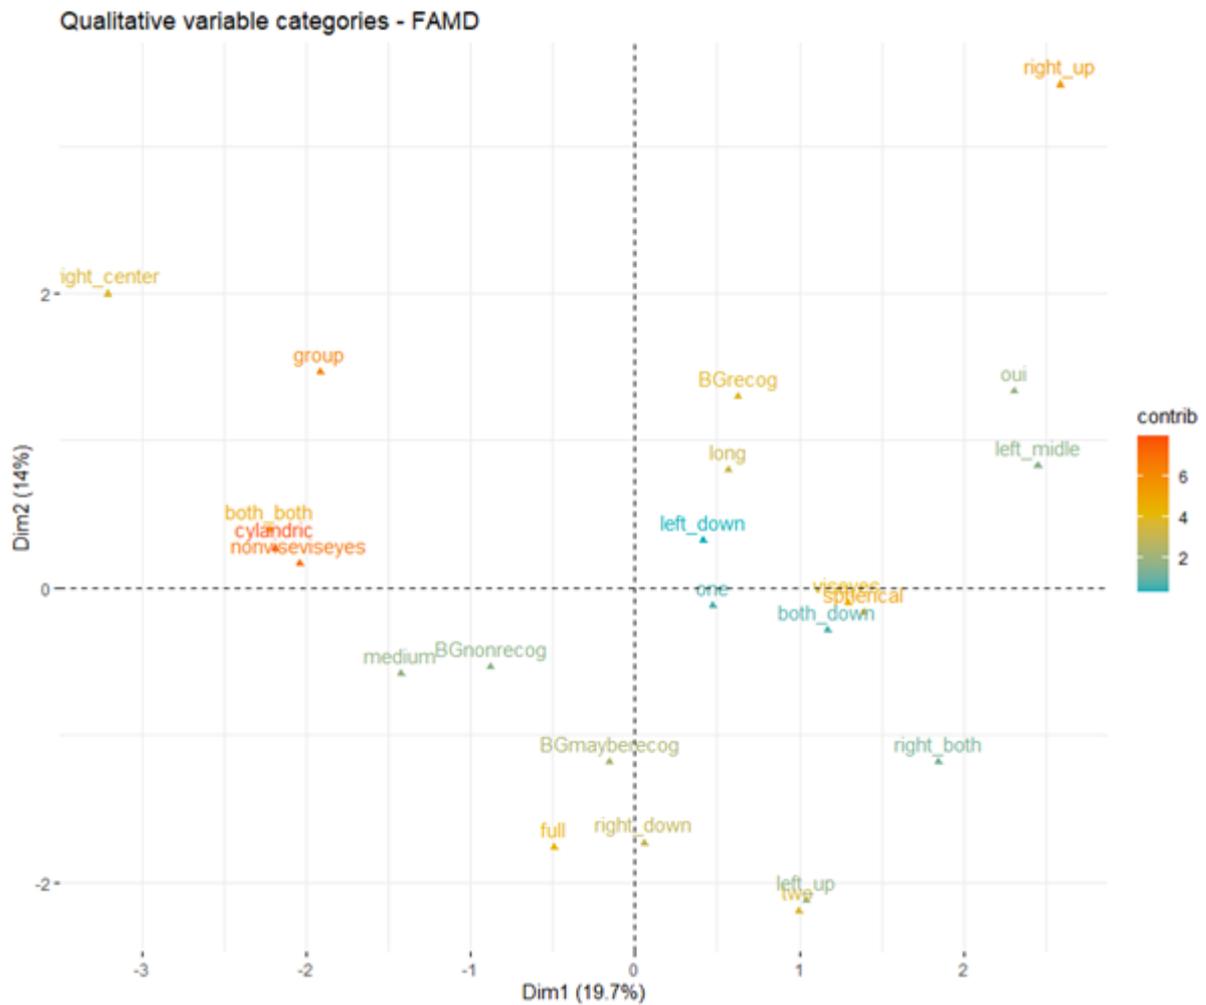

Figure 4: Distribution of the qualitative variables across the two first dimensions of the FAMD.

Leandro, C., Blanc, N., & Cortet, J. (2026). Choosing images to create awareness of soil biodiversity: Lessons from emotions aroused by photographs of Collembola. *Soil Organisms, 98*(1). https://doi.org/10.25674/477

Figure 5: Projection of the individuals, photographs, across the multidimensional space of the FAMD.

Leandro, C., Blanc, N., & Cortet, J. (2026). Choosing images to create awareness of soil biodiversity: Lessons from emotions aroused by photographs of Collembola. *Soil Organisms, 98*(1). https://doi.org/10.25674/477
