

Corrigenda for:

Jordana, R. (2012): Synopses on Palaearctic Collembola, vol. 7/1: Capbryinae & Entomobryini. *Soil Organisms* 84(2): 1–390.

We strongly advocate that scientific publications on Collembola should also cite the identification literature used. For the present volume, we recommend a reference as indicated above.

If you detect further errors, please contact us via email (soil-organisms@senckenberg.de) so we can compile a continuously updated list, for download in form of such a Corrigendum as well as for later new editions.

p. 13: Fig. 3 left shows the Th II chaetal pattern of *Entomobrya nivalis*.

p. 24, line 2 from bottom: at less reads: at least

p. 26: point 16 reads: Areas A3, A4 and A5 on Abd III with 1 mac each (Fig. 149)

p. 80: point 124 refers to Fig. 617, not 429

p. 86: the alternative entry to point 30 refers to 44, not 43

p. 87: point 38 Th III reads: Th II

p. 88: point 44 entry 1 refers to Fig. 129, the alternative entry to Fig. 130 ff.

Ibid.: the alternative entry to point 55 refers to Fig. 152

p. 91: the alternative entry to point 82 refers to 83, not 82

p. 108, *E. cognata*, paragraph on chaetotaxy, line 5: Fig. for Abd II refers to Fig. 133

p. 131, line 6 from top: *E. multifasciata* reads: *E. lanuginosa*

p. 171, *E. siciliana*, paragraph on chaetotaxy, line 2: Fig. for H4 refers to Fig. 68
